

DT11 Forum Community Partnership

Draft Project / Activities list

The following list of projects and activities are suggestions for DT11 Forum to use as a basis for its work programme and objectives for the next year, or until March 2011.

It does not mean that all other activities will be excluded, there has to be flexibility to make the most of opportunities as they arise, but it will help to focus the Partnership on delivering a series of specific projects.

Having agreed projects and objectives will also help the Forum and the Community Resource Worker(s), (CRW) to have a common plan of activities and identify where they will need additional assistance from the Partnership Development Worker (PDW).

Central Office functions

Office Administration	Office management Reception Finance Forum meetings & AGM Events management	CRWs + DT11 Exec	
Communications	Website Publications Newsletter	CRWs, DT11 Exec, DT11 Forum	
Local project support and funding advice	Grants, funding and project data	CRWs
